

Appendix 3

Site Location Plan

Notes:

- This drawing is illustrative for discussion. Railway embankment levels are taken from LIDAR data and are subject to varying tolerances. Further detailed topographical survey would be required to determine more accurate levels and the associated step and ramp requirements.
- Railway embankment tree planting species would be as follows:
 - Hawthorn
 - Holly
 - Field Maple
 - Blechnum
 - Crataegus monogyna
 - Araucarium
 - Acer campestre
 - Prunus nigra

Existing Sustrans pedestrian/cycle route looking north east. The site is the field to the right of view
