PLANNING									
1	Investment in planning service	With increased planning application workload and appeals, particularly related to our position on 5YHLS, resources are required to maintain current levels of service to our customers. In addition improving our support to the policy team on the emerging local plan and increased demand for neighbourhood planning support, we need resources to meet customer demand. The Govt have agreed a 20 per cent increase in planning application fees, which should be invested within the planning service. Securing resources to maintain or improve the planning service matches the projected increase in income for 2018/19 and ongoing.	Ongoing	South	290,000	290,000	290,000	290,000	290,000
