Subject: PLANNING APPLICATION - Morning Star - P19/S2005/FUL

I am amazed that it appears you propose to recommend to the SODC Planning Committee that the application from the FSSC at the Morning Star be 'approved'. This is more so in the light of the very real complaints and concerns you have heard from many local residents.

Such development would remove from residents the right to peaceful enjoyment of their gardens due to the added noise and disturbance caused by an increase in the number and type of function proposed. Noisy events staged in recent times show that the Club has no respect for these rights. The requested Noise Survey carried out in January failed to address these problems in any meaningful way. There will also be the problem of providing adequate on-site parking to prevent overspill into Papist Way which is already heavily congested.

This proposal is patently over-development of the site in a confined residential area when there is no evidence that the community needs a further function room, there being ample buildings in the village to cater for such needs.

I feel most strongly that the SODC will be doing a grave disservice to our community were it to approve this highly dubious application. SODC should REFUSE this application.

Sincerely

R F S ELY
