Subject: SODC Local Plan: Today's Meeting

Dear Councillor,

Today you as SODC Councillors have the opportunity to take a stand for local democracy against an overbearing central government by voting against the Local Plan in line with the platforms on which the majority of you were elected.

We expect that this day you will keep faith with your electors and maintain the value of local democracy even in the face of threats from an increasingly heavy-handed central government.

To do otherwise is to renege on your own commitment to the communities you represent and to call into question the value of the institutions of local government you serve.

Yours sincerely,

Huw Charles
