**Subject:** Please vote against the plan tonight

Dear Councillor

I write at this eleventh hour to urge to vote against the SODC Local Plan at the full council meeting tonight. As a councillor of SODC you have a democratic mandate to reject this plan and I would urge you to do so. Please do not sit on the fence and abstain. I am aware there are those who would pressure you, for undemocratic and unacceptable reasons, to vote for this plan. Please, stand up for what you know is right, think about the wider issues this plan embodies (damage to the countryside, the environment and climate change) support your local community and vote against it.

As a resident of Elsfield I am particularly concerned about the transport infrastructure which has not been thought through, is not supported by County Council Highways and would result in chaos on the ring road and the Headington roundabout from the LnBB part of the plan.

I am, however, most concerned about the unconscionable attempts by Government to subvert local democracy. If this plan is accepted tonight, it will serve to continue the draining of power from local democracies. Please don't let this happen and vote against the plan

Yours sincerely

Anne Matthews
