Dear Madam

Signage - Bix Village

I am writing formally to register my formal objection to naming various roads in the village of Bix.

My house fronts the North side of Bix Common and I have lived in Bix for some 35 years.

I object strongly to the proposal to call the road fronting my property White Lane and the road adjoining it Rectory Lane - they have never been called these in all the years I have lived in the house.

I consider that it makes a rural area suburban in character and is only likely to cause extreme confusion.

I hope that serious consideration will be given to my official objection.

Yours faithfully

Dear 

STREET NAMING - BIX

As we will be unable to attend the meeting in March we would like to lodge our objection to the proposed naming of the lanes in Bix.

We feel that the naming of 'Rectory Lane' and 'White Lane' would serve no useful purpose and would just add to the confusion. When delivery people come to my door asking the whereabouts of other houses, as happens quite often, they usually are looking for houses in Bix Bottom, Bottom House on the Fairmile or houses on the other side of the common.

This is a small rural community with many unnecessary and inappropriate road signs. We do feel that this proposal is a waste of money.

Yours sincerely,

Deerswood, Bix Common, Henley on Thames, Oxfordshire. RG9 6BP

Dear Sirs

White Lane

I understand from a notice posted on the common that you propose to name the road in front of our house that faces the common "White Lane". We object strongly to this proposal. There are only 4 houses facing the common and although we have lived here less than a year, we have no difficulties in people or deliveries finding us.

Not only does the naming seem unnecessary but the name does not seem relevant in any way to the common.

I hope your Council will therefore abandon the proposal and leave the situation unchanged.

Yours faithfully
