

## **CGR 15**

### **Parishes Affected**

Highmoor, Rotherfield Greys

### **Matter to be considered**

Amending the boundary of Highmoor parish to include the area of Satwell Close currently in Rotherfield Greys parish

### **Impact on district and county council boundaries**

None

### **Summary of parish council responses**

Rotherfield Greys parish council requested this change stating that, “the area known as Satwell is in Highmoor - it seems logical therefore that Satwell Close is in Highmoor only.”

Highmoor parish council has not responded

### **Summary of other responses**

None

### **Recommendation**

No change

### **Justification**

Satwell Close sits at the north-western edge of Rotherfield Greys parish. It is directly adjacent to, and effectively forms part of, the hamlet of Shepherds Green, also in Rotherfield Greys parish. The hamlet of Satwell, in Highmoor parish, is separated from Satwell Close by about 400 metres of open land. The working group considers that the identities and interests of the residents of Satwell Close are best served by it remaining in Rotherfield Greys parish. It could identify no compelling case for change.
