

Local Development Scheme

What is the Local Development Scheme?

- 1 The Planning and Compulsory Purchase Act 2004 (as amended by the Localism Act 2011) requires local planning authorities to prepare, maintain and publish a Local Development Scheme (LDS).
- 2 The LDS sets out the timetable to produce the Development Plan Documents (DPDs), including key production and public consultation stages. It must be made available publicly and be kept up to date. This enables the community, businesses, developers, service and infrastructure providers and other interested organisations to know which DPDs are to be prepared for the area and when they are able to participate in their preparation¹.
- 3 This LDS updates the previous Local Development Scheme published in May 2022 by South Oxfordshire District Council and Vale of White Horse District Council. It is a joint LDS that covers South Oxfordshire and Vale of White Horse District Councils. It provides information about the Development Plans and other Planning Policy documents the Councils plan to prepare.
- 4 Authority Monitoring Reports produced by both Councils annually, monitor and review the implementation of the LDS.
- 5 Whilst not a formal requirement, for ease of reference the LDS also includes information about the main supporting and procedural documents that do or will accompany the Joint Local Plan.

Background to Local Planning Documents

- 6 The development plan for South Oxfordshire and Vale of White Horse consists of a range of documents which guide development within the districts. The statutory Development Plan is the set of DPDs and Neighbourhood Development Plans that together form the statutory basis for determining planning applications for the Councils. Key elements of the **Development Plan** are:
 - **Local Plans** – Local Plans detail the planning strategies for development within the districts. This includes strategic and non-strategic policies to address the district's priorities for the development and use of land in its area, usually including the allocation of land for development, such as housing or

¹ Public consultations will continue to be advertised and stakeholders notified when important documents are published for public consultation, in accordance with our published **Statement of Community Involvement** which is available here: <https://www.whitehorsedc.gov.uk/vale-of-white-horse-district-council/planning-and-development/local-plan-and-planning-policies/statement-of-community-involvement/>

employment and open spaces. These policies must be in general conformity with government guidance, in particular the National Planning Policy Framework (NPPF).

- **Minerals and Waste Local Plans** - in areas that have County and District Councils, the County Council has the responsibility for producing Minerals and Waste Local Plans - such as is the case for Oxfordshire.
- **Neighbourhood Development Plans (NDP)** are community-led plans for guiding future development and growth of a local area. Whilst they are not compulsory, once duly prepared and once they legally come into force, they become a statutory document that form part of the Development Plan. NDPs must be in general conformity with the strategic policies contained in any Local Plan that covers their area. NDPs are prepared by qualifying bodies (parish or town councils in parished areas and neighbourhood forums in non-parished areas). They are prepared to a timescale that is set by the qualifying body, not the Councils, and therefore the timetable for their preparation is not contained within this LDS.

20 **Local Development Orders** (LDO) are policy instruments that extend permitted development rights for certain forms of development that the local authority considers to be suitable, either in general or limited to defined areas. LDOs are intended to simplify the process for development. Development that conforms to an LDO would not require planning permission. LDOs in the districts are as follows:

- Milton Park LDO - an LDO was adopted for Milton (Business) Park in 2012 and committed to undertaking a review every 5 years. A review of the LDO has started and is looking at extending the LDO to 2040. Consultation was undertaken recently that closed in October 2022, and the Council is aiming to progress for adoption in early 2023.
- Didcot Technology Park LDO - currently in preparation.
- Harwell Campus - Vale Local Plan 2031 Part 2 proposes that an LDO for Harwell Campus will be prepared to facilitate the effective and accelerated planning of proposals coming forward on the campus but this has not commenced.
- Didcot Garden Town - LDOs may also be produced to support Didcot Garden Town but none have commenced.

Statement of Community Involvement

21 A Joint **Statement of Community Involvement** (SCI) to cover both districts was adopted in December 2021, and a minor update published in November 2022.

22 The SCI is a code of practice that shows how and when the Councils will involve different groups, organisations and communities in the production of planning documents, including the Local Plan. It also sets out how the Councils will involve people when assessing and deciding on planning applications for development. It describes the Council's overall approach to community engagement and people's involvement in the planning process, as well as how people can become involved with planning applications.

Monitoring and Review

23 The Councils are required to monitor annually how effective their policies and proposals are. An Authority Monitoring Report (AMR) will be published by the Councils each year to inform LDS reviews and will be made public.

24 As part of the monitoring process, the Councils will assess:

- whether they are meeting, or are on target to meet, the milestones set out in the LDS and, if not, what the reasons are
- what impact Local Development Documents are having on other national and locally set targets
- whether any policies need to be reviewed, or replaced to meet sustainable development objectives
- what action needs to be taken if policies need to be replaced.

25 As a result of the monitoring, the Councils will consider what changes, if any, need to be made. If changes are appropriate these will be brought forward through a review of the LDS.
