BACKGROUND TO THE ENGAGEMENT

South Oxfordshire District Council consulted taxi drivers, proprietors, residents and businesses on a new hackney carriage (taxi) tariff for South Oxfordshire in June 2022. Following the feedback received, the tariff was adopted and introduced in October 2022.

The tariff is being reviewed at the request of the trade, to ensure it remains fair and reasonable for both passengers and hackney carriage proprietors and drivers.

In January 2024, we consulted on a proposed new revised tariff using the 'Guildford model', a nationally recognised method to calculate taxi tariffs which takes a number of different factors into account including local average earnings and the costs associated with running a taxi.

METHODOLOGY

Public notice

The legislation for reviewing and setting a taxi tariff states that we must publish a notice showing the proposed rates in a local newspaper for a period of two weeks to allow any objections to be made. Notices were published in the Henley Standard, Oxford Times, Oxfordshire Herald and Wiltshire Gazette and Herald between 31 January and 2 February with an initial proposed date of 20 February for the tariff to come into force. We must make a final decision within two months of the initial proposed date.

Additional engagement

For additional transparency and accountability, we chose to take the extra step of engaging with licence holders to hear their views, which took place primarily via an online survey entitled the Proposed Taxi Tariff Consultation.

We sent 344 email notifications to drivers and proprietors providing a link to the proposed tariff, online survey, and details on how to take part. A copy of the email notification can be found in this report. A link to the survey was also included in the newsletter sent to all taxi licence holders on 12 February 2024.

We also issued 850 email notifications to consultees registered on the council's consultation database.

Wider publicity of the consultation took place on social media with posts placed on the council's Facebook, Instagram, and Twitter accounts. The Oxford Mail also ran a story about the consultation.

Details of the consultation, documentation including the proposed tariff and links to the survey were published on the council's website.

The online survey offered drivers and proprietors the opportunity to provide their views on the proposed revised tariff. If respondents disagreed overall with the tariff, they then had the chance to state which parts of the tariff they disagreed with. A free text box was provided.

The survey was aimed at drivers and proprietors who were licensed by the district council. However, individuals and members of the public could also make general comments if they wished.

Drivers and proprietors had the opportunity to attend a drop-in session at the District Community Centre in Didcot on Tuesday 6 February between 1pm and 3pm to discuss the tariff with licensing officers before providing comments.

The consultation period was open for responses from Wednesday 31 January until midnight on Monday 19 February 2024.

Reporting methodology

- A total of 53 completed responses were received.
- The full results to the consultation are included in this report, alongside an officer response.
- Please note, ten duplicate responses were received using the same IP address which may bias the results.
- Any personal information supplied to us within the comments that could identify anyone has been redacted and will not be shared or published in the report. Further information on data protection is available in our general consultation's [privacy statement on our website](#).

Note: When stating percentages in the analysis, we are referring to the percentage of respondents that answered the specific question, rather than the total number of responses to the overall survey. Response percentages may not add up to 100% due to rounding up over .5 and rounding down under .5. Words that appear in italics are quotes taken from comments received.

ENGAGEMENT COMMUNICATION

A copy of the email notification sent to drivers and proprietors is provided below.

Have your say - revised Taxi Tariff for South Oxfordshire

Dear <<First Name >>

You may recall that in June 2022 we consulted you on our current tariff which was adopted and introduced in October 2022.

We are now asking for your comments on our proposed new revised tariff using the 'Guildford model', a nationally recognised method to calculate taxi tariffs.

You can find out more information about this consultation and have your say by clicking on the link below.

This consultation runs from Wednesday 31 January until 11:59pm on Monday 19 February 2024.

[Click here to take part in the consultation](#)

If you would like to discuss the tariff with one of our licensing officers before providing your comments, please come along to our drop-in session at the District Community Centre, Didcot on **Tuesday 6 February between 1pm and 3pm.**

If you have any questions about the proposed tariff or require the documents in an alternative format (for example large print, Braille, audio, email, Easy Read and alternative languages), please email licensing@southoxon.gov.uk or call 01235 422556.

Data protection

Please view our Privacy Notice regarding how your personal data is used for this consultation, available on our websites: [South Oxfordshire webpage](#) and [Vale of White Horse webpage](#).

SURVEY AND FULL RESULTS

A copy of the survey is provided below which includes the full results alongside an officer response.

This survey is primarily aimed at taxi drivers and proprietors licensed by the district council. However, if you're a member of the public and would like to comment on the proposed tariff, you can do so by completing the general comments box.

Our [current tariff](#) was introduced in October 2022. We are now proposing a new revised tariff using the ['Guildford model'](#), a nationally recognised method to calculate taxi tariffs.

In addition to changing the amounts charged for each hiring, we are proposing to start Tariff 2 from 10pm, rather than 11pm.

We would now like to know what you think of the **new proposed tariff**.

You can view the [proposed tariff document here](#).

To find out more information about how the proposed tariff was set, [please click here](#).

If you do not agree with the figures used to calculate the tariff, please ensure you explain why, and provide documentary evidence to support your comments. A file upload button is available in the survey.

This consultation runs from Wednesday 31 January until 11.59pm on Monday 19 February 2024.

Want to discuss the proposed tariff with an officer?

If you would like to discuss the tariff with one of our licensing officers before providing your comments, please come along to our drop-in session at the [District Community Centre](#) on Tuesday 6 February between 1pm and 3pm.

Why your views matter

Once the consultation period ends, we will collate and review all the responses. The process for adopting the tariff is as follows:

If we receive any objections to the tariff, we will need to refer the matter to Cabinet for review. This would take place in April 2024 and we could not adopt the new tariff until after that meeting has taken place.

If we do not receive any objections, the new tariff will take effect in South Oxfordshire from 20 February 2024.

Once the new tariff comes into place, you will need to update your taxi meter with your meter company representative and have the meter checked and sealed by one of our authorised garages. We will allow a period of 1 month for this to be done.

We will publish the tariff, along with the consultation statement and a consultation summary report on our website.

Queries?

If you have any questions about the proposed tariff or require the documents in an alternative format (for example large print, Braille, audio, email, Easy Read and alternative languages), please email licensing@southoxon.gov.uk or call **01235 422556**.

Personal Details?

If you are responding as a driver or proprietor you are required to provide either your name, or trading name and email address to ensure we can contact you if we require any further clarification on your comments.

If you are responding as a individual/member of the public, or other you do not need to provide this information but can do so if you wish. Any personal information you provide to the council within your comments that could identify you will not be published in the consultation report. Further information on data protection is available in our [privacy statement](#).

ANON-Z9BE-K89N-4	<i>Would it be possible if i was to stay on the current tariff which is cheaper than proposed tariff especially tariff 3 which has jumped from £7.50 to nrlly £12.00 for flag as alot of customers to complain goin on med to long journernys. The current tarriff would.be cheaper than the.propsed new tarriff and therefore i would like to stay on it pls</i>	We note this proprietor feels the proposed tariff is too high and will result in more people booking private hire vehicles instead. The proposed tariff is a maximum and any driver can charge a lower amount if they wish.
	<i>The higher tarriff will make abit more money for us but once we give a potential customer an approx quote for a journey they say too much and ring a local private hire firm thus hackney drivers lose money</i>	

<p>ANON-Z9BE-K8EU-Q</p>	<p><i>Proposed tariff is not right in the present time of inflation and how other salaries increase. Minimum fare tariff one is even less then bus fare for 4 people travelling on bus. Guildford current tariff that is 18 months old is much righer then this proposed tariff and our area if work is expensive then guilford and 3 compliance in a year can not be justified how expensive our vehicle licence is to maintain. All area of work are very rural and not much and continuous work available like guilford, reading or Wokingham. There is no heckney carriage vehicle licence cap and with less work there are huge number of hackney carriage licenses.</i></p>	<p>The policy that older vehicles require more frequent testing has been in place for many years and recognises that older vehicles are more prone to mechanical defects. The Guildford model takes into account the costs of running a taxi including compliance tests.</p> <p>The information on how the tariff was calculated using the Guildford model was provided with the survey link, this includes average salary data from the ONS.</p> <p>The alternative tariff proposed would result in a 2 mile tariff 1 fare of £9.85 which would place us 5th highest in the country. What I can see the renewal process is not happening every 12 months. Even when the minimum wage goes up, prices goes up, car parts and service goes up, tyres are more expensive. Trains tickets prices goes up at the beginning of the year, every year.</i></p>	<p>It is noted this driver feels that Sunday daytime charges should be lower, which corresponds to some of the public comments.</p> <p>The suggestion to review the tariff in April each year is also noted.</p> <p>Looking at the specific figures proposed, there is a proposal for the fare to increase every 100 yards, which is far more frequent than the current 176 yards. Using the figures provided would therefore result in a 2 mile tariff 1 fare of £11.63 which would make us the second most expensive area in the country. <p>ANON-Z9BE-K8ZP-7</p>	<p><i>The cost per mile seems extremely high given modern vehicles have much better fuel efficiency that in the past and servicing costs can be minimised (e.g. by buying a second hand Tesla Model 3 which are now available for <£20k).</i></p> <p><i>You can fly halfway across Europe for the cost of a 10 mile taxi in tariff 2... <p>ANON-Z9BE-K8TS-4</p>	<p><i>I use taxis all the time as I do not drive. I use them for business and leisure, I use them in the morning, afternoon, evening and at night.</i></p> <p><i>I do not agree with the tariff that the council has proposed as they have not spoke to the drivers they have just tried to impose a tariff on them.</i></p> <p><i>I have spoken to some of the drivers and they have a tariff that they want to have. <p>ANON-Z9BE-K89V-C</p>	<p><i>As a disabled non-driver, the local taxi service is a vital method of transport for me, used for leisure purposes during the day. Like all aspects of the cost of living, I expect and grudgingly accept that all prices increase. This proposed tariff at least applies a structured and fair degree of pricing. However, will it apply to taxi services across the whole spectrum of availability? When I book in advance, I have the choice of what I perceive to be a reputable business. If I need a taxi at the railway station, I must take the next in line. Are they all covered by the same pricing structure? I have been charged exorbitant amounts by seemingly 'one-off' drivers, way above the proposed new tariff prices. How can I be sure of a correctly applied fare?</i></p>	<p>This tariff applies to all work carried out by hackney carriages within the district - including pre-booked work. It is a maximum and any driver can charge a lower amount if they wish. Meters are checked at the time of their compliance test and any concerns about individual fares perceived as being too high should be reported to us for investigation.</p>
<p>ANON-Z9BE-K89K-1</p>	<p><i>I don't understand why there is a different rate for working on a Sunday. Supermarket workers don't get paid a different rate for this.</i></p>	<p>It is common for tariffs to include a higher rate for Sundays as it was traditionally a rest day and it was felt reasonable for drivers to receive a higher fare for</p>

		working on this day of the week.
ANON-Z9BE-K8TV-7	<p><i>Average cost per mile to run a car - 40p. Even allowing for wages etc a cost of £3per mile can only be described as extortionate and massive council sanctioned profiteering.</i></p> <p><i>However as the county and local councils have an overt agenda to drive cars off the road it doesn't surprise me that you're acting in this way.</i></p> <p><i>This is an unnecessary increase which will only hit the pockets of the hard up residents even more - but as with your war on cars you clearly don't care about the effect on residents and business.</i></p>	We note the concern that the proposed tariff is too high and will impact on residents in the district.
ANON-Z9BE-K89E-U	<p><i>Although I understand that taxi drivers are 'feeling the pinch' just like everyone else I do not feel that the tariffs proposed are likely to do anything to encourage the general public to use them instead of using their own vehicles. This should be encouraged as much as possible to reduce drink driving.</i></p> <p><i>The use of taxi's should be only encouraged where there is no, or limited, public transport. Surely if we are trying to reduce greenhouse gases we should be promoting the use of public transport.</i></p> <p><i>Living close to Wallingford the bus services provided does little to help this and should be improved significantly.</i></p>	We cannot comment on the availability of bus services but note the comment that the proposed fares are too high and may dissuade the use of taxis and a potential increase in drink-driving.
ANON-Z9BE-K89P-6	<p><i>Fees are too high for additional passengers. Should be encouraged to take more people if anything a single person supplement.</i></p> <p><i>Should be cheaper 2-3 miles as under 2 people could walk.</i></p>	The supplement for additional passengers is with a view to subsidising the higher cost of running larger vehicles. If passengers wish to group together for journeys that is perfectly acceptable, but we recognise that single persons may not feel comfortable doing this and we would not wish to deter any lone person taking a taxi for public safety reasons.
ANON-Z9BE-K8Z2-9	<p><i>Tariffs are reasonable providing they are matched with a quality of service. Too often taxis are late or don't turn up at all, and many do not take direct routes in order to charge you more.</i></p>	This comment about the quality of taxi provision is noted; we would encourage anyone with such concerns to contact us with details so we can investigate.
ANON-Z9BE-K89H-X	<p><i>I use taxis because I am too old to drive. ANON-Z9BE-K8TT-5	<p><i>Sundays should be charged the same as Saturdays as for many years now, both weekend days have had shops open and business as normal etc so Sundays shouldn't be treated any differently</i></p> <p><i>Taxi rates are already very high for short journeys and the increase will just prevent people using them as much</i></p>	<p>It is common for tariffs to include a higher rate for Sundays as it was traditionally more of a rest day and it was felt reasonable for a higher fare for working on this day of the week. We note the concern that the proposed tariff is too high and will dissuade people from using taxis.</p>
ANON-Z9BE-K8ZU-C	<p><i>I use taxis all the time.</i></p> <p><i>day and night</i></p> <p><i>I think tariff from council not good.</i></p> <p><i>Tariff from drivers good. Is good for drivers.</i></p> <p><i>Give drivers tariff they want.</i></p>	<p>No comments - member of public supports tariff proposed by SVTDA</p>
ANON-Z9BE-K89Q-7	<p>I have to say I am astonished that these services are not subsidised at least as much as buses. Taxis come to where you wish to start your journey and take you directly to your destination. This is the ideal model for people who have no regular need of a private vehicle. Buses, however do not start from where you want them too or indeed take you to your destination. Mass public transport is OK for cities, we can all avoid them, but just do not work in rural areas.</p>	<p>District councils have no resource or budget to subsidise taxis or private hire vehicles but we recognise that they are an important part of local transport infrastructure which is why it is important to set a reasonable tariff. We will also feed this comment through to Oxfordshire County Council who are responsible for the Local Transport Plan.</p>
ANON-Z9BE-K8ZR-9	<p><i>I believe the tariff set is insufficient for the Taxis in the both district as that directly results with residents having to pay alot higher fares to Private Hire Companies, as they are allowed to charge whatever they like. Its unfair on the hackney trade as then there are less of them around to do the job as they can not afford to run due to cost of living and in turn we have to pay "call out charges built into the private hire fare, eg. Go Green on occassions charge double what a normal taxi should charge according to hackney tariff but if the hackney tariff was better for drivers then we wouldn't have to pay Extortionate prices</i></p>	<p>It is noted that this member of the public suggests the tariff should be higher.</p>

	<p><i>to get around locally, to us it would be 2-3 miles but private hire firms come from 10-15 plus miles out, so of course they will take advantage.</i></p> <p><i>If the Hackney drivers can't afford to run because of rising cost then we are left to pay the extortionate prices to private hire companies that have to travel 10-20 miles to get to us, who pays for that? as they not going to come all that way to charge only 2-3 trip..... are they?</i></p>	
ANON-Z9BE-K89R-8	<p><i>I mostly use the taxi service after the theatre which usually finishes after 10.00pm, but before 11.00pm. Why has the new tariff changed when this is a likely time for older people to need a taxi.?</i></p>	<p>The proposed change to Tariff 2 commencing at 22:00 aims to ensure drivers receive a reasonable fare for working at this time of night, but this concern is noted.</p>
